OTHER CHARACTERISTICS

The **“All Stars S/R”** armchairs are molded with the aid of blow molding technology in high density copolymer polypropylene, colored in the mass and enriched with ultraviolet, antistatic and fire retardant additives.

Self-supporting, they consist of a seat and back with an embossed visible surface, obtained through photoengraving on the mold.

The backrest is tilted manually. In stadiums and arenas, the seats are applied by means of steel frames directly on the tread or on the telescopic stands.

The steel parts are normally painted black with epoxy powders.

NUMBERING - OPTIONAL

The **“All Stars S/R”** armchairs can be equipped, if required, with PVC plates with indelibly silk-screened number which optionally can be inserted on the front or the back of the backrest.

GUARANTEE CERTIFICATION

CETA “All Stars S/R” armchairs” have **Class 1 “Fire reaction” certification** (as from positive results in the CSE RF 2/75/A and RF 3/77 tests as per Ministerial Decree 26/06/1984, ordinary supplement to Official Gazette n.234 of 25/08/1984). Excellent results in resistance to UV rays.
